

Not Just a Dedicated Server, a Hosting Solution.

When you purchase a dedicated server from Server Intellect, you not only get a server, you get a (complete) managed hosting solution. We will provide you with the tools, resources and support you need to run your business on the web. No matter what challenges you face, Server Intellect will help you every step of the way so that you can focus your valuable time and resources on growing your business. It's what we do. It's who we are.

Software and Features Included

SSL VPN
Create an encrypted VPN connection right to the backend network at the DataCenter! No hardware needed at your location!

Security Analyzer
Microsoft Baseline Security Analyzer is a tool that helps you determine your security state in accordance with Microsoft recommendations!

Administration Assistance
Every dedicated server includes 1 hour of Management Services free of charge each month! We will gladly assist with any common Windows Server task!

Data Backup
20 GB Backup Space Included! Enterprise Data Backup allows you to restore or backup your server anywhere in the world using only a web browser.

Managed Firewall
Managed Firewall adds another layer of security to your server in addition to the IDS/IPS Tipping point solution that is applied across the entire network. This means you can rest easy knowing that your server has the security it needs.

Intrusion Prevention
TippingPoint Intrusion Prevention System guards against denial of service, malicious traffic, viruses, malware, phishing, spyware and other types of Internet threats coupled with automatic and zero day response.

McAfee VirusScan
McAfee VirusScan Anti-Virus for Windows currently detects hundreds of thousands of known viruses, worms, trojans and other threats that could harm your server!

Monthly Proactive Security Maintenance
A Server Intellect technician can log into your server once a month on the date and time that you specify to perform security updates and software upgrades proactively!

HELM Control Panel
Pre-configured and fully secured. Manage Unlimited Websites, Email Accounts, FTP Accounts and more with the HELM Control Panel!

SmarterTools Software Bundle
Includes SmarterMail 5, SmarterStats 4, and SmarterTrack 3! A \$747.00 Value Included Free of Charge!
